The latter two labels are primarily to help one program easier dances in the later part of the evening; hence, they are only given for line dances in the first two categories.

REMARKS

This list is not gospel! Programming involves taking into account many variables: the crowd, what was recently taught, the mood of the evening, et. al. It is meant to be a helpful reference for use before and during a dance. Ratings such as "core" and "𝕏" are sometimes judgement calls and do change with time. The list is kept on a computer to facilitate updating.

Thanks to all who proofread and made helpful comments: DG, IG, JT, LT, MR, PY, and AEIMHF.
