Publications of Daniel Ruberman

15. The minimal genus of an embedded surface of non-negative square in a rational surface, Turkish J. Math. 20 (1996), 129-133.

Preprints

1. Rohlin's invariant and gauge theory, III: Homology 4-tori. (with N. Saveliev)

2. The Seiberg-Witten invariants of manifolds with wells of negative curvature.
